Please Note

As per published policy, Education Services Australia may contact the second referee to confirm primary function.

Declaration to primary function relates to the applicant directly, not that of a project or program owned or administered by the applicant or the intended purpose, content or services to be made available on the proposed domain name(s).

For the purposes of .edu.au policy, providing general services to entities within the education and training sectors does not qualify as “related services” and therefore such entities are not considered eligible. This includes but is not limited to:

- stationary, uniform, book or other supply services
- information technology, software or website development services
- marketing, referral, administration or financial services

In addition to completing this form, the proposed domain name(s) must also meet the allocation criteria outlined in Schedule 2 of the Registration Policy in order to be approved.

International delivery of education services does not qualify as a national interest or responsibility.

All domain name licences are issued subject to mandatory terms and conditions and published policies. Non-compliance with such terms and conditions or published policies may lead to the cancellation of a domain name licence. Please see www.domainname.edu.au/policy.htm for full details.
