In order to be eligible for a third level domain name the applicant must demonstrate that they or a project or program their application relates to has national interests and responsibilities either via operating in more than one state or territory in Australia or by other means.

International delivery of education services does not qualify as a national interest or responsibility.

All domain name licences are issued subject to mandatory terms and conditions and published policies. Non-compliance with such terms and conditions or published policies may lead to the cancellation of a domain name licence. Please see [www.domainname.edu.au/policy.htm](http://www.domainname.edu.au/policy.htm) for full details.
